HICKSVILLE, LONG ISLAND, NEW YORK

PAPER-WHITES AND OTHER TENDER NARCISSUS

These Narcissus, with their sweet scented clusters of white, cream and yellow flowers, are used most extensively for winter flowering in the home and the ease with which they can be so readily flowered under home conditions makes them one of the leading subjects for store sales. We suggest that these bulbs be offered for sale in combination with fancy bowls and other containers together with the necessary planting material such as bulb fibre or pearl chips—both of which are offered on back cover.

For florist's use they provide a quick catch crop through the mid-winter months when flowers are usually scarce and expensive.

Narcissus, Paper-White

Paper-White Grandiflora

Our bulbs are grown in Northern Florida in a section that has consistently produced the finest quality stock available in this country.

Non-Warranty

Although we exercise the greatest care and precaution in sending out only such stock as should perform entirely satisfactory, we nevertheless give no guarantee, expressed or implied, as to the quality, description or productiveness of any bulbs or roots we send out and will in no way be responsible for the crop. If the purchaser does not accept our bulbs or roots under these conditions, they are at once to be returned. No claims whatever will be allowed unless reported to us within 48 hours after the merchandise is received.

Less than 25 bulbs sold at the dozen rate, from 25 to 249 at the 100 rate, 250 and more at the 1000 rate.

A Few Words About Bulb Sizes

No comparison of prices can be made without a similar comparison of sizes and quality. Wherever practicable in this catalog, we have shown the actual sizes in centimeters of the bulbs we are offering and our quality is the finest in every instance. Most bulbous subjects are measured by centimeters in circumference and the following scale drawing will enable buyers to determine the sizes they require.

Dutch Hyacinths

For outdoor planting these bulbs are a universal favorite as they provide a show in the early spring garden that is unobtainable with other subjects. For florists' forcing they are a dependable crop and indispensable to the pot plant grower.

There is a vast difference in the quality of Hyacinths that is not apparent in the size or appearance of the bulbs. To judge from the glowing reports on the stock we have been sending out we believe that our bulbs, size for size, will out-perform a great many and be bettered by none. We invite comparison.

The varieties of Hyacinths listed below are the leaders in their respective colors.

City of Haarlem. Bright golden yellow. Makes a large spike. Considered the finest of the yellows.

Gertrude. Rosy pink, compact spike. A favorite with florists.

Grand Maitre. Fine deep porcelain blue. Large well-formed spike on strong stem. Most popular blue variety.

King of the Blues. Deep glossy blue. Well-formed large spike on shorter stem. Late forcer.

Lady Derby. Two-toned light pink with large bells on heavy truss. Early.

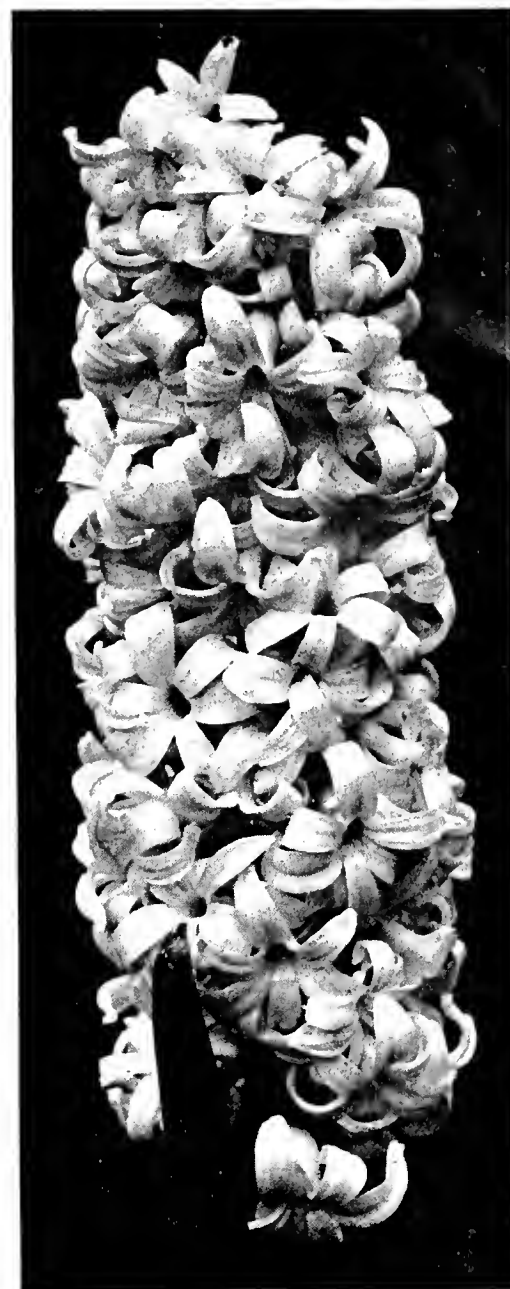

I'Innocence. Pure white with a large, loose spike of elegant form. The most popular of all white varieties.

La Victoire. Brilliant carmine-red.

Marconi. Deep rosy pink. A very fine variety.

Queen of the Blues. Light blue with silvery shadings. Makes a large spike. Very good for all purposes.

Queen of the Pinks. Beautiful deep rosy pink. Large spike of fine bells. Late forcer.

The size of a Hyacinth bulb to a great extent regulates the size of the flower truss that will be produced. All of the above varieties are available in the following sizes at the prices as shown.

Outdoor Planting of Darwin Tulips

Giant Darwin Tulips

All Top-Size Bulbs of Finest Quality

Darwin Tulips are the most popular of all spring bulbous items and no method of flower production produces such a glorious showing at such a small cost and with so little effort. We are among the largest importers and have available at our warehouse here in Hicksville a large supply of all the varieties listed here—and these varieties are the pick of all the commercial leaders as well as the tested newer kinds that are available at reasonable prices.

The bulbs we offer are all **top size** and will measure approximately 13 centimeters. For early forcing it is desirable to use these large size bulbs, but for later greenhouse work, for cold frames and outdoor planting, the smaller size offered on the next page will produce admirably and at a substantial saving in cost.

For
Mother's
Day

An outdoor planting of Darwin Tulips for this big flower day should prove a profitable venture. The bulbs should be planted in beds so that sash can be put over them in the early spring and the flowering period thus regulated. For this purpose the first size bulbs offered on the opposite page should produce splendidly.

Less than 25 bulbs sold at the dozen rate, from 25 to 249 at the 100 rate, 250 and more at the 1000 rate.

Daffodils (Hardy Narcissus)

Practically all of our Daffodils are produced in the northwestern states where the quality is admittedly the finest. In appearance, size, earliness and number of flowers per bulb, they are unsurpassed.

Daffodils have been in short supply for a few years and this shortage still continues. We suggest that you order early and allow us the privilege of substituting with a variety of similar appearance in case we are sold out of the one that you designate.

Colchicum—Fall Flowering Crocus

These bulbs produce their flowers, which resemble huge crocus, early in the Fall and for best results must be planted early. They are also well adapted for flowering in the home where they require very little care or attention. The bulbs are large and each produces a group of flowers. The foliage appears in the early Spring.

Rock Garden Bulbs

The bulbs listed below are specially adapted for rock garden purposes and with the present vogue for this form of gardening are in good demand. Other items, such as Tulipa Clusiana, Leucojum, etc., are also suitable for this purpose and are offered in other pages of this catalog.

These bulbs are also widely used for grouping under evergreens and shrubbery where mass plantings make a fine effect very early in the Spring before anything else is in bloom.

Amaryllis, Giant Hybrid

Anemones

Anemones are among the most beautiful of all bulbous subjects and well grown flowers of good strains invariably bring high prices. These bulbs flower over a long period and thus are a very profitable crop for those who can grow them—and every grower can, with some experimenting, find some greenhouse location that will suit them.

Amaryllis - Giant Hybrids

A Specialty With Us

No other bulbous subject offers such an opportunity for the development of increased sales and satisfied customers as these Hybrid Amaryllis. For years we have aided in their development and have started many concerns selling them—and we never get an unfavorable report.

For house culture the ease with which they can be flowered makes them the outstanding subject for this purpose and they also make a beautiful pot plant for florist use. **Large** display card with every order. Every storekeeper should feature them.

Bleeding Heart

(Dicentra)

A beautiful garden plant of graceful habit, 2 to 3 feet high. The foliage is of a highly ornamental fernlike appearance, over which hang the drooping spikes of pink, heart-shaped flowers. Blooms outdoors in May and June, and in the fall can be lifted and potted for winter and spring bloom indoors. Be sure to include this in your order—always in popular demand.

Bulbous Iris

No other bulbous crop offers such a spread between bulb costs
and average flower return as these Iris. They occupy small green-
house space and are not difficult to force when simple basic cultural
rules are followed. And they do well outdoors, too—either in frames
or in the field. With careful planning a constant crop of flowers can
be had from Christmas to June and they invariably bring big prices.

Lily - of - the - Valley

Lily-of-the-Valley is an extremely important item for those who retail bulbs and plants.
The quickness and ease with which they can be so beautifully flowered in the home makes
them very popular for this purpose and creates a continued demand throughout the whole season.
They are so satisfactory to the consumer that they build good will and a demand for other items.
We have them packed in the small units as listed below and we advise frequent, small purchases
at regular intervals. Store keepers can place them in refrigerators and keep them in perfect
condition.

EASTER LILIES

SOLD IN FULL CASE LOTS ONLY

Lilium Floridi "Superbell" Brand

This Lily has fulfilled every promise that we made and there is no other white forcing Lily that compares with it in a combination of size, vigor, freedom of disease, substance and uniformity, and in addition it has beautiful clean foliage right to the ground line. In comparing size its trumpets are more than one inch longer and wider than Erabu or Giganteum. In the New York market the flowers averaged better than double the price of the Japanese varieties.

We expect to have stock for general distribution this season and will be glad to quote those who are interested

Lilium Erabu

This variety is largely used by a great many growers who favor its earliness, easy handling qualities, height and number of flowers per bulb.

6-8 in., 400 bulbs per case.
7-9 in., 300 bulbs per case.
8-10 in., 250 bulbs per case.
9-10 in., 200 bulbs per case.

Any of the above sizes at \$19.00 per case.

Lilium Giganteum

This is the favorite dependable variety for Easter forcing and for use from cold storage during the remainder of the season. The prices quoted are for the northern grown bulbs and for the southern grown the prices will be \$1.00 per case lower.

6-8 in., 400 bulbs per case.
7-9 in., 300 bulbs per case.
8-10 in., 250 bulbs per case.
9-10 in., 200 bulbs per case.

Any of the above sizes at \$20.00 per case.

Lilium Harrisii

There are lots of growers who still depend upon this Bermuda variety. It is one of the finest and largest of all and, especially for pot plants, is very highly regarded.

It can be brought into bloom very early in the new year.

6-7 in., 335 bulbs per case.
7-9 in., 200 bulbs per case.
9-11 in., 100 bulbs per case.
11-13 in., 50 bulbs per case.

Any of the above sizes at \$25.00 per case.

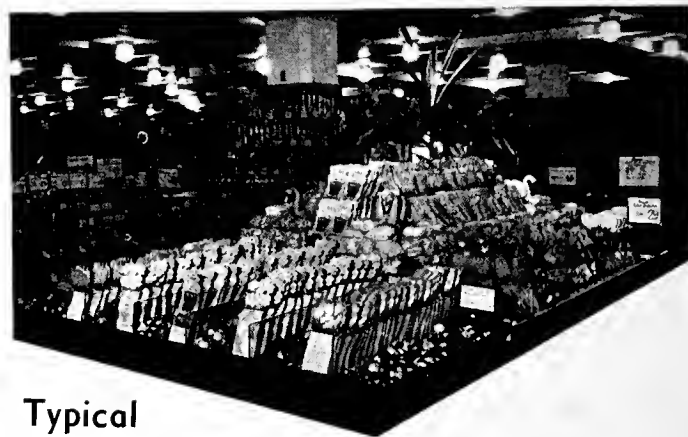

Packaged Bulbs

For Store Trade

"Sales Increased 200% to 500%"

The quotation above tells the story! The many other advantages of handling packaged bulbs are obvious. Evaporation is prevented and live condition is maintained much longer than when exposed to the dry store atmosphere. The orderly, eye-catching display prevents waste or mixing of varieties and selection by customer is simplified. Many stores have found that a display of these packages in combination with bulk bulbs is a non-conflicting sales stimulator. For display purposes, we recommend the Special 500 Package Introductory Assortment.

Gladiolus and Dahlias

For Forcing and Early Planting In The South

While a complete list of these subjects will be shown in our spring catalog — ready for mailing January 1st — we are prepared at this time to quote prices for those of you who are interested in placing earlier orders. Our Gladiolus plantings include liberal quantities of the acknowledged commercial leaders as well as newer kinds that are now available at prices that will permit of quantity planting. Prices will be lower than last year. In Dahlias we are maintaining our position as the foremost suppliers of the leading cut flower kinds, and are prepared to quote our usual special prices on over 250 of the finest available varieties — including many new ones that are making a fine showing in our fields. Ask for these quotations if you want them and be sure that your name is on our mailing list to receive the spring catalog.
